

CALIFORNIA VOTER INFORMATION

What's wrong with marijuana legalization?

(California's Prop. 19)

MATTHEW 22:37-39 NKJV

Jesus said to him, "You shall love the LORD your God with all your heart, with all your soul, and with all your mind.' This is the first and great commandment. And the second is like it: 'You shall love your neighbor as yourself.'"

THE FACTS

- 65% of teens in drug rehab list marijuana as their #1 addiction.
- Studies show marijuana is a gateway drug to cocaine and meth.
- Teens and young adults are especially at risk from today's potent, mind-altering marijuana, which can permanently damage their developing brains and young lungs.
- If pot is legalized, health and auto insurance will likely cost more as increased addictions, accidents, and drug rehab burden all Californians.
- "Drugged driving" will become commonplace and will rival alcohol-related fatalities.
- It will be a new "right" to get high on marijuana at work, even in transportation jobs.
- Marijuana legalization means cities and counties can OK selling pot in grocery stores and permit marijuana operatives to buy thousands of acres of farmland.

Note: California's Prop. 19 does not have anything to do with "medicinal marijuana," which will be available whether marijuana is legalized or not.
